

Course Development and Publishing Task Order

Task Order ID: SWA-TO-PROD-001

Course Working Title: Personal Productivity, Time Management and Focus Mastery

Prepared for: Maria - Training Delivery Team Lead

Prepared by: Skunkworks Academy

Date: 08 July 2026

Primary Publishing Target: Udemy Course Landing Page

Secondary Distribution Review: Coursera, edX, Skillshare, DataCamp, ApplyBoard partner/pathway use cases

1. Purpose

This task order instructs the Training Delivery Team to develop, quality assure, and publish a self-paced online course focused on time management, personal productivity, procrastination control, focus, task management, project execution, habits, and productivity mindset.

The course must be practical, beginner-friendly, and suitable for students, professionals, entrepreneurs, freelancers, remote workers, career advancers, and lifelong learners.

2. Business Objective

Create a market-ready course that can be published first on Udemy and later adapted for Skunkworks Academy LMS, corporate training delivery, and partner platforms where appropriate.

The course must:

- Improve learner confidence in planning, prioritising, focusing, and executing tasks.
 - Include practical templates, worksheets, and exercises.
 - Meet marketplace quality standards for landing page copy, HD video, clear audio, and structured curriculum.
 - Be reusable for B2C learners, corporate productivity workshops, student readiness programmes, and career development pathways.
-

3. Course Positioning

Recommended Course Title

Personal Productivity, Time Management and Focus Mastery

Alternative SEO Titles

1. Time Management and Productivity Masterclass
2. Productivity, Focus and Procrastination Control
3. Personal Productivity Systems for Work, Study and Business
4. Time Management, Task Planning and Productive Habits

Recommended Subtitle

Build practical time management, focus, prioritisation, habit, and task-management systems for work, study, business, and life.

Recommended Category

- Primary: Personal Development - Personal Productivity
- Secondary: Business - Management / Career Development

Learner Level

Beginner to intermediate. No specialist technical background required.

4. Required Learning Objectives for Course Landing Page

Maria must replace the current clipped learning objectives with concise, complete learning outcomes. Each outcome stays under 160 characters.

1. Plan daily and weekly schedules using time-blocking, prioritization, and calendar routines to reduce overwhelm.
 2. Apply productivity techniques such as Pomodoro, batching, time audits, and distraction control to improve focus.
 3. Identify procrastination triggers and use practical strategies to start, sustain, and complete important work.
 4. Build a task and project management system using lists, calendars, dashboards, reviews, and deadlines.
 5. Create productive habits and a growth mindset that support personal, academic, and career goals.
 6. Design a personal productivity action plan for work, study, remote work, or business ownership.
-

5. Requirements and Prerequisites for Learners

Use the following beginner-friendly requirements on the landing page:

1. No prior productivity training is required. The course starts with the fundamentals.
 2. Basic computer or smartphone skills are useful for accessing videos, worksheets, and online tools.
 3. Learners should have access to a notebook, calendar, task app, spreadsheet, or project management tool.
 4. Learners should be willing to complete short reflection exercises and apply the techniques to real work or study tasks.
 5. Optional: familiarity with tools such as Microsoft Outlook, Google Calendar, Trello, Notion, Microsoft Planner, Todoist, or Asana may help.
-

6. Intended Learners

This course is for:

1. Students who want better study planning, time management, focus, and academic performance.
 2. Professionals who want to improve work efficiency, manage deadlines, and reduce task overload.
 3. Entrepreneurs and small business owners who need better routines, prioritisation, and work-life balance.
 4. Remote workers and freelancers who need structure, self-management, and motivation in flexible work environments.
 5. Career advancers who want to become more reliable, organised, and execution-focused at work.
 6. Anyone interested in personal growth, productive habits, and practical self-improvement.
-

7. Scope of Work

Maria is responsible for coordinating the full development and publishing workflow, including curriculum design, content production, asset creation, video quality assurance, publishing metadata, and launch readiness.

In Scope

- Course outline and module structure
- Lesson scripts and instructor notes
- Slide deck creation
- Video recording plan
- Video review and editing coordination
- Worksheets, templates, quizzes, and learner activities
- Course landing page copy
- SEO title, subtitle, description, keywords, and promotional copy

- Course thumbnail and promotional video brief
- Platform publishing checklist
- Final QA sign-off

Out of Scope Unless Separately Approved

- Paid ads campaign setup
- External accreditation application
- Translation into other languages
- SCORM/xAPI packaging
- Corporate customisation for a named client
- Full Coursera or edX institutional partnership application

8. Recommended Course Architecture

Target Duration

3.5 to 4.5 hours of video content, supported by worksheets, quizzes, and downloadable templates.

Target Lesson Count

35 to 45 short lessons, grouped into 8 modules.

Recommended Module Structure

Module	Module Title	Key Outputs
1	Productivity Foundations	Learner understands productivity, overwhelm, priorities, and time ownership.
2	Time Audit and Goal Clarity	Learner completes a time audit and identifies high-value activities.
3	Planning and Scheduling Systems	Learner builds daily, weekly, and monthly planning routines.
4	Focus and Distraction Control	Learner applies Pomodoro, batching, deep-work blocks, and interruption control.
5	Procrastination and Motivation	Learner identifies procrastination patterns and applies action-starting techniques.
6	Task and Project Management	Learner builds a task board, priority matrix, deadline tracker, and review system.
7	Habits, Mindset and Energy	Learner builds repeatable routines and manages energy, consistency, and burnout risk.
8	Personal Productivity Action Plan	Learner finalises a practical 30-day productivity implementation plan.

9. Required Learner Assets

Maria must ensure the following assets are produced and reviewed before publishing:

1. Time Audit Worksheet
2. Weekly Planning Template
3. Daily Focus Planner

4. Eisenhower Matrix Worksheet
5. Pomodoro Tracker
6. Procrastination Trigger Reflection Sheet
7. Task and Project Dashboard Template
8. Habit Tracker
9. 30-Day Productivity Action Plan
10. Final Course Completion Checklist

Preferred file formats: PDF for learner downloads, editable DOCX/XLSX where appropriate, and Google Sheets or Microsoft Excel versions for templates.

10. Assessments and Activities

The course must include practical assessment checkpoints rather than passive watching only.

Assessment Type	Quantity	Purpose
Knowledge quizzes	6 to 8	Reinforce core concepts after each module.
Reflection exercises	5 to 7	Help learners apply the content to personal situations.
Practical worksheets	8 to 10	Build usable productivity systems.
Capstone activity	1	Create a 30-day personal productivity action plan.
Completion checklist	1	Confirm the learner has implemented the core tools.

11. Production Standards

All course media must meet the following requirements:

- Video resolution: minimum 720p, preferred 1080p.
 - Audio: clear, synced, free from distracting echo or background noise.
 - Audio channels: must play correctly through left and right channels.
 - Recording environment: clean background, stable lighting, minimal visual clutter.
 - Lesson structure: short, focused videos, ideally 3 to 8 minutes each.
 - Accessibility: captions or transcript files should be prepared where possible.
 - Branding: use Skunkworks Academy visual standards where allowed by the publishing platform.
 - Tone: practical, direct, encouraging, and implementation-focused.
-

12. Publishing Metadata

Maria must prepare the following before upload:

SEO Keywords

- time management
- productivity
- personal productivity
- focus
- procrastination
- task management
- project management
- productive habits

- planning
- prioritization
- remote work productivity
- career growth
- work-life balance

Course Description Direction

The course description must explain:

1. The productivity problem: overwhelm, distractions, poor planning, procrastination, missed deadlines.
2. The course promise: practical systems to plan, focus, execute, and build productive habits.
3. The method: time audits, prioritisation, scheduling, focus techniques, task systems, habit building, and action planning.
4. The outcome: learners leave with a personal productivity system and 30-day implementation plan.

Promotional Video Brief

Create a 60 to 90 second promotional video that covers:

- Who the course is for
 - The pain points it solves
 - What learners will build
 - What tools and templates are included
 - Why the course is practical and beginner-friendly
-

13. Platform Publishing Workstream

Udemy - Primary Workstream

Maria must prepare and publish the course on Udemy first.

Required tasks:

1. Finalise course title, subtitle, category, level, and language.
2. Upload learning objectives, requirements, intended learner profile, and full course description.
3. Upload curriculum sections and lessons in correct order.
4. Upload downloadable resources and quizzes.
5. Upload promotional video and course image.
6. Check pricing, coupons, and launch promotion settings.
7. Submit course for review after internal QA sign-off.

Skunkworks Academy LMS - Internal Reuse

Prepare a platform-neutral source pack so the course can later be reused on the Skunkworks Academy LMS.

Required tasks:

1. Store source files in the approved content repository.
2. Maintain editable slide decks, scripts, transcripts, worksheets, and video masters.
3. Create a course folder structure by module.
4. Prepare an LMS upload checklist.

Coursera / edX - Partner Review Workstream

Do not treat these as immediate self-service uploads unless Skunkworks Academy has the required partner or institutional publishing access.

Required tasks:

1. Prepare a partner-ready course synopsis.
2. Prepare instructor bio and organisational profile.

3. Prepare learning outcomes, assessment model, and estimated learner effort.
4. Package the course as a structured proposal for partner-platform review.

Skillshare - Adaptation Review

Skillshare may be suitable if the course is adapted as a practical class project.

Required tasks:

1. Convert the capstone into a visible class project: 30-Day Productivity System.
2. Simplify lessons into a project-based format.
3. Prepare class project instructions and downloadable worksheet pack.

DataCamp - Adaptation Review

DataCamp is not the primary platform for a general productivity course. Consider only if the course is reframed around data, AI, automation, or analytics productivity.

Possible adaptation:

- AI productivity workflows
- Excel productivity dashboards
- Python or Power BI productivity analytics
- Automation for task tracking and reporting

ApplyBoard - Pathway Review

ApplyBoard is not a course marketplace for this type of self-paced course. Use only if the course becomes part of a study-readiness, employability, or international student success pathway.

14. Task Breakdown and Ownership

Workstream	Owner	Supporting Roles	Output
Course planning	Maria	Curriculum SME	Approved course blueprint
Curriculum writing	Maria	Instructional designer	Module outline and lesson objectives
Script development	Instructional designer	Instructor/SME	Lesson scripts and speaker notes
Slide deck	Content designer	Maria	Branded presentation deck
Recording	Instructor	Maria	Raw video lessons
Editing	Video editor	Maria	Final MP4 lessons
Worksheets/templates	Instructional designer	Content designer	PDF and editable learner resources
Quizzes/activities	Instructional designer	QA reviewer	Assessment pack
SEO and landing page	Maria	Marketing lead	Publish-ready landing page content
Publishing	LMS/platform admin	Maria	Course uploaded and submitted
QA sign-off	Maria	Raydo/approver	Launch approval

15. Proposed Timeline

Recommended delivery window: 08 July 2026 to 29 July 2026, using business days only.

Phase	Dates	Deliverables
Phase 1 - Planning and blueprint	08-10 July 2026	Course title, outline, learner outcomes, assessment plan
Phase 2 - Script and asset development	13-17 July 2026	Scripts, slide deck, worksheets, quiz drafts
Phase 3 - Recording and editing	20-24 July 2026	Raw recordings, edited videos, captions/transcripts where possible
Phase 4 - Publishing and QA	27-29 July 2026	Uploaded course, QA checklist, submission for review

16. Quality Assurance Checklist

Maria must verify the following before publishing:

- All videos play from start to finish.
- Audio is clear, synced, and plays through both channels.
- No background noise, echo, or distracting interruptions remain.
- Slides are readable on desktop and mobile.
- No spelling errors in slide decks, worksheets, captions, or landing page copy.
- All downloadable resources open correctly.
- Quizzes have correct answers and explanations.
- Course landing page fields are complete and not clipped.
- Learning objectives are measurable and under platform character limits.
- Course image meets platform standards and does not contain misleading claims.
- Promotional video is clear, short, and aligned with the course promise.
- Final curriculum sequence is logical and complete.
- Pricing and launch settings are checked before submission.

17. Repository and File Structure

Create the following folder structure:

```
/productivity-time-management-course/
  00-admin/
    task-order.pdf
    qa-checklist.xlsx
    publishing-checklist.xlsx
  01-curriculum/
    course-blueprint.docx
    module-outline.docx
    lesson-objectives.xlsx
  02-scripts/
    module-01-scripts.docx
    module-02-scripts.docx
  03-slides/
    master-slide-deck.pptx
    exported-pdf-slides.pdf
  04-video/
    raw/
    edited/
    final-mp4/
  05-resources/
    worksheets/
    templates/
    quizzes/
```

06-publishing/
udemy-landing-page-copy.docx
seo-keywords.txt
promo-video-script.docx
course-image-brief.docx
07-qa/
review-notes.docx
final-signoff.pdf

18. Acceptance Criteria

The task order is complete when:

1. The full course blueprint is approved.
 2. All modules, lessons, scripts, and slide decks are complete.
 3. All videos are recorded, edited, and exported in the required format.
 4. All learner resources, quizzes, and worksheets are complete.
 5. Course landing page copy is finalised.
 6. SEO keywords and promotional video script are complete.
 7. The Udemy course is uploaded and ready for submission or already submitted for review.
 8. The reusable Skunkworks Academy source pack is stored in the approved folder structure.
 9. Maria provides a final QA report and sign-off request.
-

19. Immediate Actions for Maria

1. Confirm the final course title and subtitle.
 2. Create the course folder structure.
 3. Replace clipped landing page outcomes with the revised outcomes in this task order.
 4. Draft the complete course blueprint using the 8-module architecture.
 5. Assign owners for scripting, slides, recording, editing, worksheets, and publishing.
 6. Prepare the first version of the Udemy landing page copy.
 7. Schedule the internal QA review before platform submission.
-

20. Approval

Prepared for execution by: Maria - Training Delivery Team Lead

Approval required from: Raydo / Skunkworks Academy

Approval status: Pending

21. Notes

This course should be positioned as a practical implementation course, not a theory-only personal development course. The differentiator must be the learner's final productivity system: time audit, weekly planner, daily focus routine, task dashboard, habit tracker, and 30-day action plan.
